

# Micronized Mixed Flakes

High quality Micronized Mixed Flakes of Maize, Peas & Barley. A complementary feeding stuff. Micronized products have special implications where small intestine amylase production is low (young livestock, companion animals, horses) and where hind gut production of short chain fatty acids are undesirable.

Contains approximately 25% Micronized Flaked Peas, 25% Micronized Flaked Maize and 50% Micronized Flaked Barley.

Suitable for all diets. Recommended for high performance diets and young animal diets. Suitable for horses. Suitable for ruminants. Particularly useful in young animal diets, but ideal for any age.

## Typical Analysis

Fresh Weight (%)	
Dry Matter	86
Moisture	14
Protein	12.5
Oil	2.9
Fibre	4.3
Ash	2

Energy Levels (MJ/Kg)	
Ruminant (ME)	12.2
Pig (DE)	14.3

NOTE: Whilst every effort is made to ensure the accuracy of this document, the information provided is meant as a guideline only.

## Suitable For

Cattle, Sheep, Pig, Equine, Dog, Small Pet, Wild Bird

## Available Formats

Flaked

## Packaging

25kg bag  
I.B.C. Tote 500kg - 1,000kg  
Bulk: Blown or Tipped
